About Me

As a driven and rigorous engineering graduate, I am excited to launch my career in the field of UI/UX. I'm eager to learn more and experience the real-world challenges. Known for my attention to detail and ability to work efficiently in teams. I'm excited about the opportunity to bring passion and expertise to a forward-thinking organization

Skill set

- Figma
- Canva
- Framer
- Basics of Adobe illustrator
- Python
- C
- java
- HTML, CSS
- Prototyping and wireframing

Soft Skill

- Problem solving.
- Communication : Proficient written and verbal in English.
- Team work and collaboration.
- Taking Ownership.
- Self Motivated.
- Multi tasking.

Education Background

- Bachelor of Engineering under the domain of Computer Science and Design (in progress) with **8.27 CGPA** (upto 4th semester) at Kongu Engineering College, Perundurai, Erode.

- Higher secondary certificate (HSC) with **90.68%** at The Modern Academy Matric higher secondary school, Namakkal.

- Secondary school leaving certificate (SSLC) with **85.4%** at same school.

Design Skills & Projects

My UI/UX projects:
- Done a project of **WhatsApp clone** with exact design and interactions using the tools of figma.
- Done a project named as **"Civil Sites"** as a part of my semester activity using figma.
- Completed a food delivery app named as **"HungryBox"** using the tools of figma.
- Completed a brief advertisement of the **Toyota Cars** with interactive design using figma
- Currently doing the UI of the own app named as **"HealHub"** in figma. (in progress)
- Practicing user interface design as **"Daily_UI"** in figma.
- Learning the components of **M3 design** for UI/UX.

Funded projects

- **KEC BusNotify** - Done a IoT project based on the signal transmission to get notified for waiting of students in bus stand.
- It was funded by **TBI@KEC** - Rs. **30,000/-**

Project Links

- WhatsApp clone - "WhatsAppclone"
- Food delivery app - "HungryBox"
- Toyota advertisement - "Toyota"
- Daily_UI - "Daily UI Challenge"
- Online Meat Ordering Shop
- Hospital Management

Other Projects

- Done projects like **Online meat ordering web application** and **Hospital Management** using HTML/CSS with database.
- Completed an User Experience Design course in my last semester and learning User Interface Design in my current semester.

Professional bodies

2023 – 2024	Secretary of Computer Science and Design Association.
2022 – 2023	Played a role of executive member and newsletter team in Computer Science and Engineering Association.
